Letter of recommendation for Mr. Cedric Patin

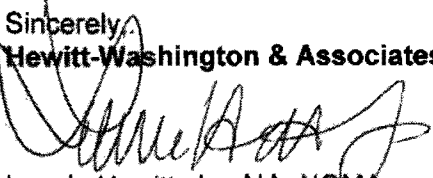

To whom it may concern,

I have known Mr. Cedric Patin for well over 15 years and have worked with him professionally on several construction projects. He is known to be responsive and conducts his business in a professional manner.

Most notably, Mr. Patin successfully completed a school based health clinic at the historic Warren Easton High School in New Orleans, Louisiana for which my firm was the architect of record. The project evolved the complete renovation and retrofitting of an existing two story historic structure that presented many physical challenges. The finished project has been well received by the school and supporting community.

I would welcome the opportunity to work with Mr. Patin in the future and would not hesitate to recommend him to my clients.

Sincerely,
Hewitt-Washington & Associates, Architects + Planners
