

BUILDING A BETTER WORLD

May 24, 2012

To Whom It May Concern:

I am pleased to write a letter of recommendation for J.C. Patin and his company. In the aftermath of Hurricane Katrina, MWH was awarded a program management contract by the city of New Orleans to assist in the rehabilitation/replacement of the city properties that were damaged. This work evolved through the Office of Recovery and Development to include street rehabilitation through the Department of Public Works. J.C. Patin worked as a subconsultant to MWH on these projects and provided design management, construction management and administrative assistance services that were outstanding. The personnel they provided were knowledgeable, reliable and dependable and were an asset to the management team.

The experience MWH had with J.C. Patin and his company was excellent and we would absolutely work with him and his firm on future projects. We recommend J.C. Patin and his firm and consider them an excellent partner on the projects we worked on together.

Sincerely,

A handwritten signature in black ink that reads "Raymond G. Hartley".

Raymond G. Hartley, P.E.
Senior Vice President
MWH Americas, Inc.
